<p>3</p> <p>Historypin supports learning about Geography Pin photos onto the Historypin map using an address and then pin them to Street View using recognisable features to determine the angle at which a photo was taken. Make comparisons between old photos or videos and current Street View images to see how places have changed. Identify the patterns and human and physical processes that cause these changes. Investigate photos that demonstrate improvements in: transport demands of industrialisation; technological advancement; increase in suburban housing as a result of improved transport; and economic cycles.</p>	 
<p>4</p> <p>Historypin helps us learn about the value of community, diversity and participation Find photos, videos or audio that show factors that bring communities together, such as shared events, and see how these have changed over time. Explore how areas and communities have changed as a result of migration by focusing on religious buildings, markets and shops as well as the people in the photos.
